

Note on the course for the Birmingham XC League and Midland Ladies XC League at Warwick University on 11th February 2017

The course will consist of 1 small lap, plus one and a half large laps to the finish for the lady's race (7.8k) and two and a half large laps to the finish for the men's race (9.2k).

It should be noted that a "preferred route" is shown for the large lap as well as an option B and an Option C. This is because a construction site for the proposed new university sports hall and swimming pool is due to start 4 days before the date of the races and fencing work may disrupt the preferred route. A decision will be made 1 day before the races on which course to set out.
